# Your satisfaction is our priority.

## Robust AC technology! Hyundai's 9-series small battery forklift

Hyundai introduces a new line of 9-series battery forklifts.

The newly designed four-wheel counterbalance forklift maximizes productivity by enabling comfortable driving and easy maintenance.

### Work efficiency & productivity

- Prolonged Battery use : Regenerative braking
- Powerful and precise driving performance of a dual drive motor
- Optimized performance mode setting (H,N,E)
- Curve control
- Electronic fingertip control lever (OPT)

### Durability & reliability

- AC motor exclusive - IP65 ZAPI controller
- Semi-permanent wet disc brake
- IP43 AC motor

### Safety

- Anti-roll back (ABS) system
- Turtle mode & maximum speed control
- Operator Presence Sensing System (Optional)
- Panoramic rear view mirror

### Maintenance

- Self diagnostics function
- Password starting system
- Brake oil level sensing system

Power & Performance

# High Efficiency & Optimal Performance

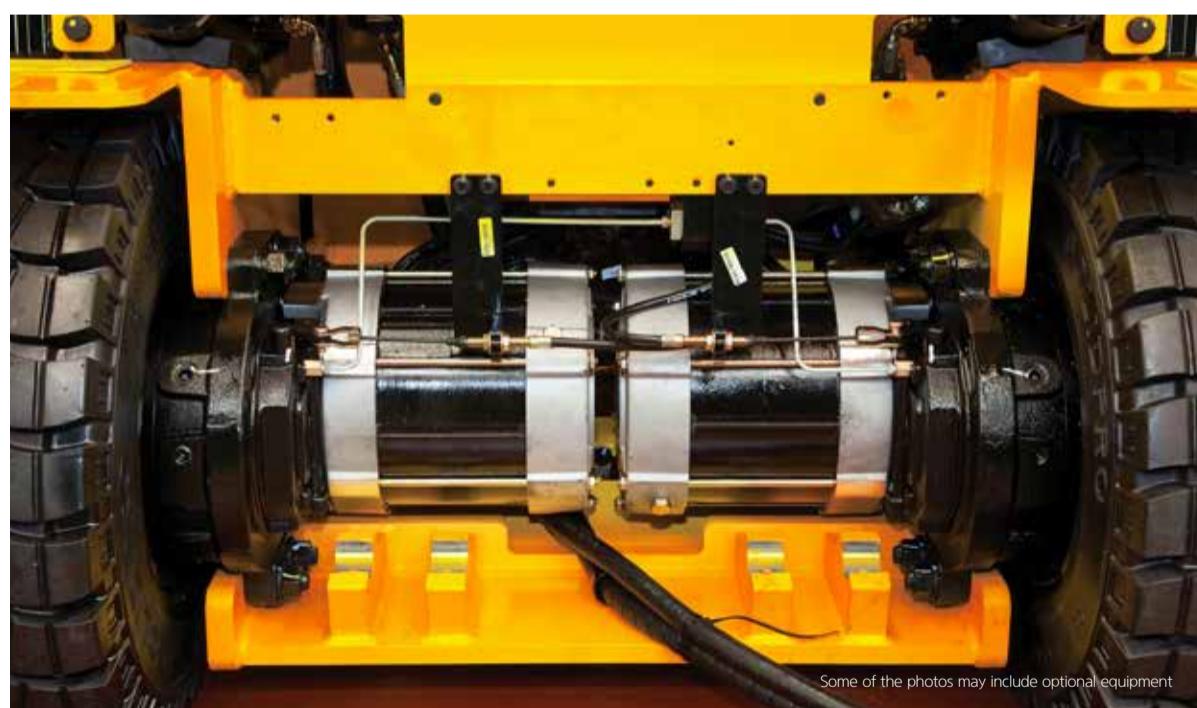

An efficient, smooth running and compact design provides enhanced performance and outstanding productivity.

Some of the photos may include optional equipment

## Strong driving power – Dual drive motor system

The dual drive motor system consists of two separately controlled drive motors. Unlike the single drive motor system, it prevents the wheels from spinning even when the grip force of the left and right wheels is different. In addition, it enables strong drive performance even on a dirty road. As the pivot point is the axle of the wheels, the dual system enables relatively small turning radius compared to the single system, thus improving efficiency in small worksites.

Some of the photos may include optional equipment

**Robust and economical AC motor**

Drive and pump motors using our AC technology provide great controllability and durability, compared to DC motors. Also, AC motors without the commutator and brushes cost less to maintain. In addition, it has been tested and passed for IP43 protection rating.

**New ZAPI controller**

The almost noiseless 8 khz (high frequency) ZAPI controller enables high efficiency control and protects the system from low and high voltages and overheating.

**Wet disc brake**

The semi-permanent wet disc brake provides constant braking force without overheating even when used for long hours of repetitive work, thus improving work efficiency. Without requiring brake linings, which needs regular replacement, maintenance costs are relatively low.

**Optimized operation mode setting**

Through the cluster and the performance selection function of ZAPI controller, the operator can select an optimal performance mode depending on working conditions, worksite size and operator proficiency.

**H** (High), **N** (Normal), **E** (Economic)

**Curve control**

Curve control limits travel speed based on turning radius for a smooth, precise turning operation for the driver.

**Prolonged Battery use**

When the operator's foot is lifted from the accelerator, the kinetic energy is converted to electrical energy and stored in batteries. The operator can stop the vehicle with the energy generated from the energy conversion.

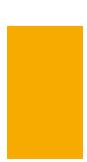

## Excellent driving & work performance

The combination of best-in-class drive and pump motors and the latest ZAPI AC controller allow for quick and agile driving and ideal operation speed, optimizing efficiency of loading/unloading.

Easy & Comfort

# Optimized Ergonomics & Fast and Easy Maintenance

An ergonomically designed workspace for operator provides the best comfort and easy access for maintenance.

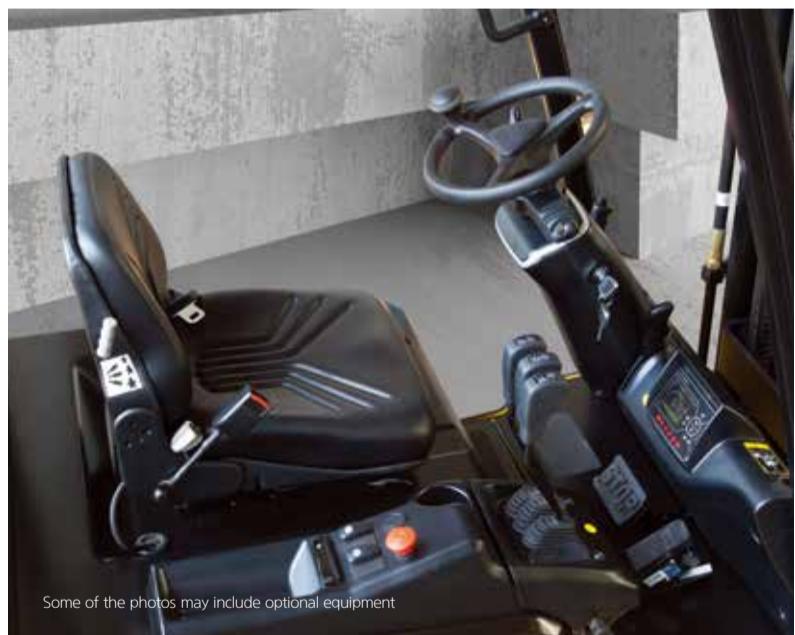

Some of the photos may include optional equipment

## Ergonomically designed workspace

Ergonomic design focusing on operator convenience and maneuverability further enhances work efficiency. Easily operable levers and pedals, adjustable handle, suspension seat and a large multi-functional cluster dashboard allow comfortable and efficient driving.

### Grammer seat

An adjustable ergonomic seat provides unmatched comfort. The adjustable armrest further reduces operator fatigue.  

- ELR(Emergency Locking Retractable) type seat belt
- Seat heater (STD) & headrest (OPT)

## 3.5 inch LCD color monitor

The 3.5 inch TFT LCD color monitor indicates speed, steering angle & driving direction, battery charge level and hour meter & working mode, thus allowing easy and efficient control for the operator. In addition, diagnostic error codes allow easy fault diagnosis.

### Main functions

- Steering wheel position & driving direction
- Turtle mode
- Driving speed (Digital)
- Battery discharge indicator
- High temp warning lamp
- Wrench warning light
- Roll up
- ESC
- Menu / Scroll left
- Performance / Scroll right
- Enter
- Turtle / Scroll down

### Steering wheel position

A steering sensor is applied to the king pin of the rear axle, communicates to the LCD color monitor to show the direction of the vehicle as it relates to the angle of the steer wheel.

### Finger tip control levers (OPT)

Ergonomically designed electrical fingertip control levers for improved operator comfort and productivity. The armrest can be adjusted for operator comfort.

### Adjustable tilting handle

The handle angle can be adjusted with the lever on the right side of the steering wheel to suit the operator's physique and driving habit.

### Easy maintenance of battery

The battery cover opens fully with the assistance of a gas strut that locks when fully opened to give easy access to battery and prevent the hood from dropping.

### Brake oil reservoir with level sensor

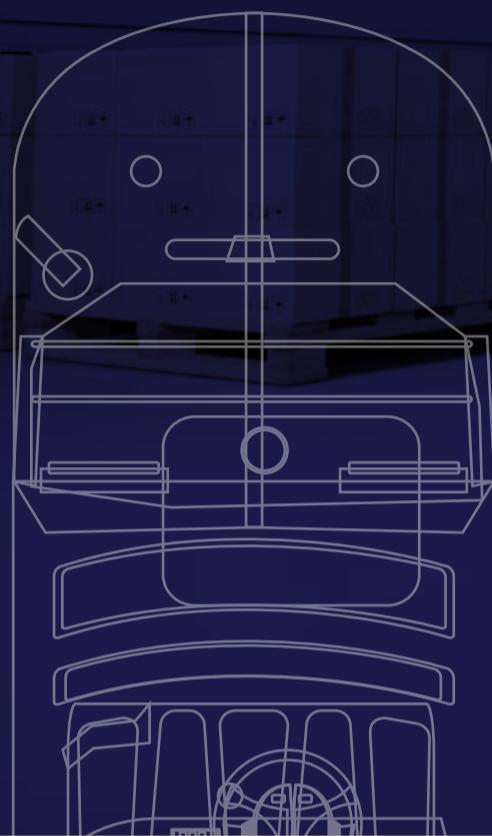

The enhanced brake oil reservoir, located in the upper left dash is equipped with an electronic level sensor that shows the level in the LCD color monitor.

Secure & Safety

# Advanced Safety

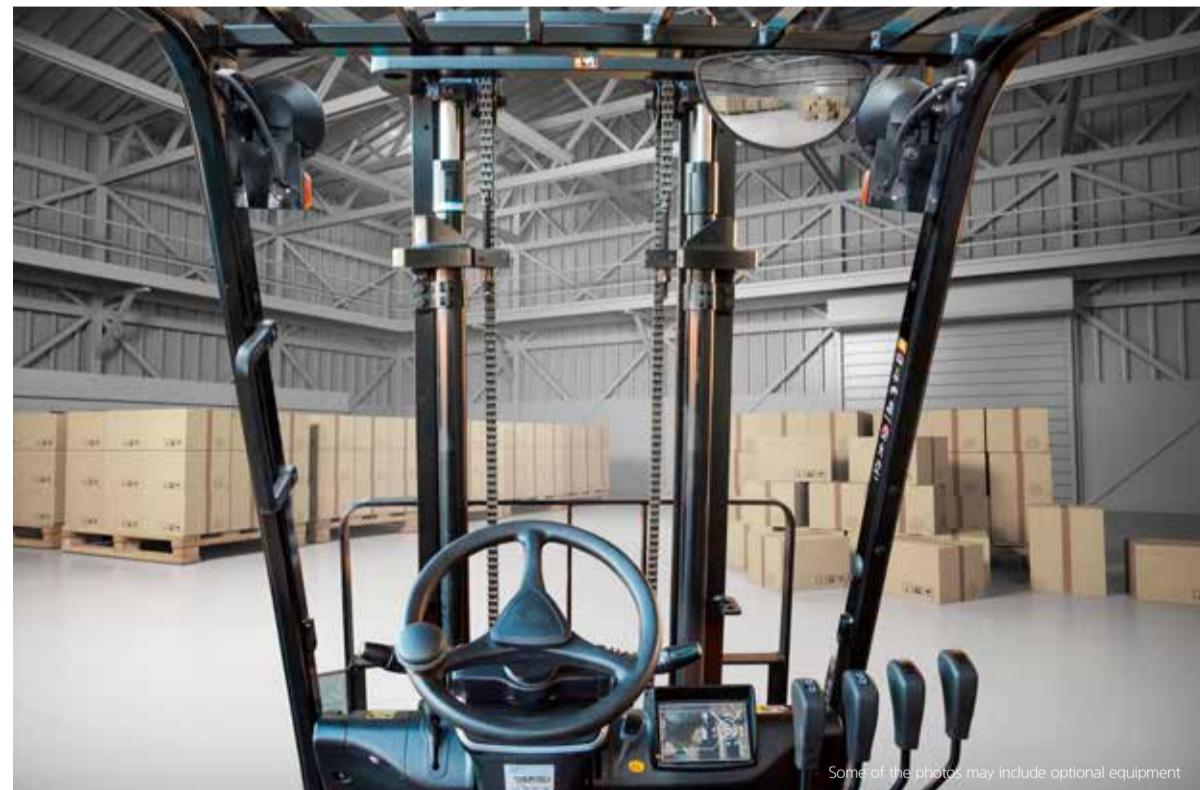

The safely designed driver's space makes your operating more comfortable.

Some of the photos may include optional equipment

## Great visibility for safe operation

The optimized lift cylinder array design provides a clear, wide field of vision for the operator. A rear camera(OPT) and panoramic mirror expands the driver's view when backing up.

Some of the photos may include optional equipment

**Strong overhead guard**

**Panoramic mirror**

The panoramic mirror expands the driver's view when backing up.

### Speed limit setting

The operator can set and limit the maximum speed given the curve & congestion of an aisle and the shape of the load.

### Password starting system

The operator can set a password to prevent vehicle theft and possible safety accidents in case the vehicle is used by an unauthorized person.

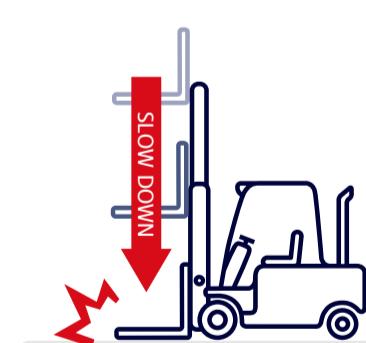

## Safety features

The adoption of a high-sensitivity sensor and advanced safety system can prevent the safety accidents.

### Anti-Roll Back system

Anti roll-back system offers protection against the machine rolling back on a ramp in combination with exceptional ramp start capabilities.

### Fork safety features

As the forks are being lowered, a down-control valve maintains a controlled descent speed. The down-safety valve prevents forks from dropping down in case of sudden damage of hydraulic line.

### Operator presence sensing system (OPSS)

When operator is not in seat, the mast cylinder does not function even if the action lever is operated.

### Strengthened work safety

Rear LED lights and halogen lights offer excellent visibility even during night operations. Safety has been increased by installing an additional reflector on the counterweight.

### Turtle mode

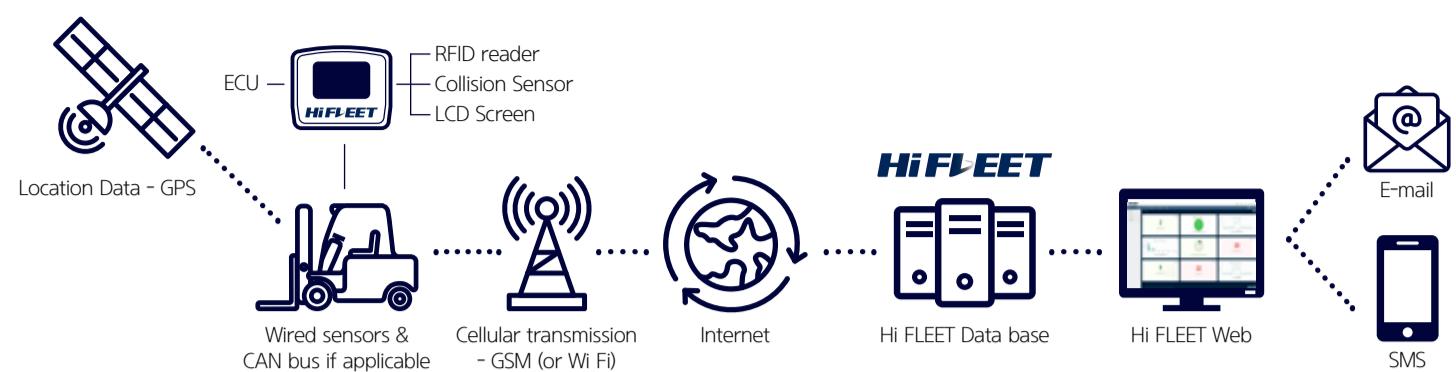

When selecting the turtle mode while working in narrow and congested workplace, the travel speed is reduced at a preset speed.

# Fleet Management System(Hi FLEET)(OPT)

Hi FLEET, Hyundai material handling's fleet management system, is the optimal operation solution for a fleet of forklifts. It connects driver and vehicle in real time.

You can see the video by scanning the QR code.

## DRIVER MANAGEMENT

It is possible to certify drivers and manage their work through RFID, PIN password.

## VEHICLE MANAGEMENT

You can check the operating time, battery status, and location information in real time.

## SAFETY MANAGEMENT

You can check the driver's conditions and vehicle status before starting work and manage the speed and collision.

## MAINTENANCE

You can keep your vehicles in optimal condition by notifying the vehicle's maintenance interval and fault codes.

### Hi FLEET System

### Optional Items

- Fork (mm)

16 / 18B-9F : 35X100X750, 850, 900(STD), 1050, 1200, 1350, 1500  
20B-9F : 40X100X900(STD), 950, 1000, 1050, 1150, 1200, 1350, 1500, 1600

- Integral Sideshift / Sideshift

Tire : SOLID(STD) / Non-marking / Wide tire [16B-9F : Front tire (200 / 50-10)]

- Seat : semi suspension seat (STD)

Full suspension seat (Armrest, Backrest extension, Heating, Buckle S/W)

- M.C.V : 2-Spool (STD), 3-Spool, 4-Spool

- Beacon Lamp

Work Lamp and rear combination lamp

- Side Mirror

OPSS : Mast

Cold Storage (for -30° c cold working environments)

Cabin (Fine Top)

Load Backrest (LBR)

## Specification

### Identification

1.1	Manufacturer	Hyundai		
1.2	Model	16B-9F	18B-9F	20B-9F
1.3	Power type	Electric	Electric	Electric
1.4	Type of operation	Seated	Seated	Seated
1.5	Load capacity	Q kg	1,600	1,800
1.6	Load center distance	c mm	500	500
1.8	Load distance, center of front axle to fork	x mm	360	360
1.9	Wheelbase	y mm	1,355	1,440

### Weights

2.1	Service weight (including battery)	kg	3,085	3,214	3,394
2.2	Axle loading, loaded front / rear	kg	4,106 / 578	4,437 / 577	4,770 / 624
2.3	Axle loading, unloaded front / rear	kg	1,491 / 1,594	1,562 / 1,652	1,569 / 1,825

### Tires

3.1	Tires : solid rubber(V), superelastic(SE), pneumatic(P), polyurethane(PE)	SE	SE	SE
3.2	Front Tire size (Ø×width)		18×7-8	200 / 50-10
3.3	Rear tire size (Ø×width)		16×6-8	16×6-8
3.5	Wheels, number front rear (x = driven wheels)		2× / 2	2× / 2
3.6	Track width, front	mm	895	905
3.7	Track width, rear	mm	880	880

### Dimensions

4.1	Mast / fork carriage tilt forward / backward	degrees(°)	5 / 7	5 / 7	5 / 7
4.2	Lowered mast height	h1 (mm)	1,970	1,979	1,979
4.3	Free lift height	h2 (mm)	35	35	40
4.4	Lift height	h3 (mm)	3,025	3,025	3,030
4.5	Extended mast height	h4 (mm)	4,020	4,020	4,020
4.7	Overhead guard (cab) height	h5 (mm)	2,065	2,065	2,065
4.8	Seat height / Standing height	h7 (mm)	1,090	1,090	1,090
4.12	Coupling height	h10 (mm)	250	250	250
4.19	Overall length	l1 (mm)	2,935	3,020	3,030
4.20	Length to face of forks	l2 (mm)	2,035	2,120	2,130
4.21	Overall width	b1 (mm)	1,074	1,105	1,105
4.22	Fork dimensions	s / e / l (mm)	35×10×900	35×100×900	40×100×900
4.23	Fork carriage ISO 2328, class / type A, B		II/A	II/A	II/A
4.24	Fork-carriage width	b3 (mm)	1,006	1,006	1,006
4.31	Ground clearance, loaded, under mast	m1 (mm)	85	94	94
4.32	Ground clearance, centre of wheelbase	m2 (mm)	90	90	100
4.33	Aisle width for pallets 1,000×1,200 crossways (L×W)	Ast (mm)	3,352	3,427	3,447
4.34	Aisle width of pallets 800×1200 crossways (W×L)	Ast (mm)	3,495	3,575	3,595
4.35	Turning radius	Wa (mm)	1,710	1,795	1,810

### Performance Data

5.1	Travel speed, loaded / unloaded	km/h	14 / 15	14 / 15	14 / 15
5.2	Lift speed, loaded / unloaded	mm/s	330 / 500	300 / 500	330 / 500
5.3	Lowering speed, loaded / unloaded	mm/s	500 / 450	500 / 450	500 / 450
5.6	Max. drawbar pull, loaded / unloaded S2 5min	N	11,550 / 11,345	12,035 / 10,835	12,020 / 10,805
5.8	Max. gradeability, loaded / unloaded	% (*)	22 (12.4)	21 (11.9)	18 (10.2)
5.10	Service brake			Hydraulic	Hydraulic

### Motor

6.1	Drive motor rating S2 60 min	kW	4.0×2	4.0×2	4.0×2
6.2	Pump motor rating at S3 - 15 %	kW	12.0	12.0	12.0
6.4	Battery voltage, nominal capacity K5	V/Ah	48 / 440	48 / 440	48 / 440
6.5	Battery weight	kg	820	1,000	1,000
6.7	Battery demension (L×W×H)	mm	978 / 545 / 635	978 / 630 / 635	978 / 630 / 635

### Other Details

8.1	Type of drive control		AC	AC	AC
-----	-----------------------	--	----	----	----

## Dimensions
