Dimension

1. 3 Drive: electric(battery or mains), diesel, petrol, fuel gas, manual

1. 5 Load capacity / rated load

1. 8 Load distance, center of drive axle to fork

2. 2 Axle loading, loaded front / rear

3. 2 Tires size, front(Φ x width)

3. 3 Tires size, rear(∅x width)

3. 6 Track width, front

3. 7 Track width, rear **Basic Dimensions**

4. 3 Lift height

4. 2 Lowered mast height

4. 4 Extended mast height

4. 9 Length to face of forks

4.7 Coupling height

4. 8 Overall length

4. 10 Overall width

4. 11 Fork dimensions

4. 17 Turning radius

Performance Data 5. 1 Travel speed, unloaded

5. 10 Service brake

6. 3 Rated speed

Engine

4. 12 Fork - carriage width

4. 5 Overhead guard (cab) height

4. 6 Seat height / Standing height

4. 13 Ground clearance, loaded, under mast

4. 14 Ground clearance, centre of wheelbase

4. 18 | Smallest pivot point distance

5. 2 Lift speed, loaded/ unloaded

5. 7 Gradient performance, Loaded

6. 1 Engine manufacturer / type

6. 2 Engine power acc. to ISO 1585

6. 4 No. of cylinder / cubic capacity

8. 3 Oil volume for attachments

8. 1 Type of drive control

Air Conditioning System

(Global Warming Potential: 1430)

6. 5 Fuel consumption acc. To VDI cycle

8. 2 Operating pressure for attachments(system/attach)

8. 4 | Sound level at driver's ear according to DIN 12 053

The air condition system for the machine contains the fluorinated greenhouse gas with global warming potential of R134a.

The system hold 0.55kg refrigerant consisting of a CO₂ equivalent 0.79kg metric tonne. For more information, Please refer to the manual.

5. 5 Drawbar pull, Loaded

5. 3 Lowering speed, loaded/unloade

4. 15 Aisle width for pallets 1,000 x 1,200 crossways

4. 16 Aisle width for pallets 800 x 1,200 lengthways

2.3 Axle loading , unloaded front / rear

4. 1 Mast / fork carriage tilt forward / backward

3. 5 Wheels, number front rear(x = driven wheels)

1. 6 Load center distance

2. 1 Service weight

Wheels, Chassis 3. 1 Pneumatic

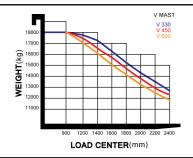

Weights

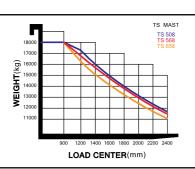

1. 4 Type of operation: hand, pedestrian, standing, seated, order - picker

Mast Specification

Mast Type		Maximum Fork Height(mm)	Overall Height Lowered(mm)	Tilt Angle (deg) Fwd / Bwd	Load Capacity (1,200mm LC)(kg)	Truck Weight Unloaded(kg)

Performance Enhanced For Tier-4 Final

MOVING YOU FURTHER

HYUNDAI CONSTRUCTION EQUIPMENT

Your satisfaction is our priority!

The newly designed 4 wheel counterbalance trucks provide

02 HYUNDAI FORKLIFT

New Diesel Forklift with Proven Quality and Advanced Technology

HYUNDAI FORKLIFT 03

- Maximum performance
- Spacious operator's cab
- Load indicator

High Efficiency & **Optimal Performance**

Powerful engine and high technology systems provide you with enhanced performance and highest productivity.

Some of the photos may include optional equipment.

Benz(MTU) OM936(6R1000) **Engine**

210KW/2,200rpm 117kgf.m/1,400rpm

Powerful Engine

The six cylinders turbo-charged engine is built for power, reliability and economy. This engine meets EPA Tier 4 and EU stage IV emission regulation.

Excellent fuel efficiency

Fuel consumption rate is improved than previous model.

SCR (Selective Catalytic Reduction)

No DPF and no DOC required

EGR(Exhaust Gas Recirculation)

- High torque at low speeds
- Excellent transient behavior

ZF Full-automatic Transmission

Full-automatic transmission gives easy, convenient handling and soft, smooth shifting. The operator can select two kinds of automatic modes.(1st 3rd, 2nd 3rd)

Improved Torque converter with stator free wheel provides you fuel efficiency compared with old model for 4%.

Fully Hydrostatic Power Steering

The hydraulic steering system always guarantees smooth and flexible steering, preventing over-run and kick-back.

Load Sensing System

Only flow required on cylinders is supplied. It makes energy saving. (No excessive flow)

The planetary reduction drive axle smoothly delivers desired torque to the drive wheels.

Wet Disc Brake System

The wet disc brake system is virtually maintenance free and is enclosed to protect from dust and water.

Increased mast tilting angle

Utilizing the mast tilting angle of 10 degrees forward and 10 degrees backward, the operator can perform loading and unloading jobs safely and rapidly.

Max.Gradeability (loaded/Unloaded)

Model	%	Model
180D-9	31.1 / 30.4	180D-9

Max.Travel Speed (Unloaded) Km/h

37.5

Faster Travel Speed & Better Gradability

The powerful engine provides greater acceleration, better gradability and faster travel speed on any tough terrains or slopes.

04 HYUNDAI **FORKLIFT** HYUNDAI FORKLIFT 05

Best Convenience& **Optimised Ergonomics**

The ergonomically designed cabin provides full support and comfort to the operator.

Spacious operator cabin

The newly designed cabin was conceived for more space, a wider field of view and operator comfort.

MP3 CD Player & Remote Control

Socket (Option)

Bluetooth Hands Free Centralized Instrument switch Panel

Luxury(Air-suspension+Heat+HeadRest) seat(Option) An attractive and adjustable seat, based on a human engineering

design, provides great comfort, safety and durability.

Quick Response of Operating Control Levers

Only minimal operator's effort is required for precise, safe and productive control.

(5-Lever, 6-Function: Standard) (5-Lever, 7-Function: Option)

Ergonomically positioned pedals

Based on human engineering the accelerator, brake and inching pedals are optimally positioned for the operator's convenience.

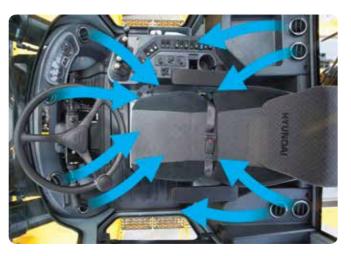

Top-Wiper (STD)

Secure a clear visibility on the roof

Adjustable steering column

Steering handle is adjustable depending on the operator's body shape. Adjustability of steering column makes you more comfortable.

High-output Air Conditioner & Heater

An air conditioner with integrated the condenser is mounted on upper side of the cabin to make a wide room in the cabin. And an air conditioner with high-output and heater always provide you with comfortable environment when you work.

Advanced **Safety**

The safely designed driver's space makes your operating more comfortable.

Alternate torque

The optional load indicator displays the load weight in the monitor. The load sensor reduces the time to check loaded weight and the alarm alerts the driver when overloaded.

Adjustable Engine Low Idle RPM

While engine runs, low idle rpm can be increased by unit of 25rpm and it keeps previously set rpm when engine restarts.

Load indicator

The optional load indicator displays the load weight in the monitor. The load sensor reduces the time to check loaded weight and the alarm alerts the driver when overloaded.

Up-to-date Cooling System

The minimum fuel consumption and low noise are available by applying hydraulic cooling fan sensing intake air temperature, transmission oil temperature, coolant temperature and hydraulic temperature.

Cabin Tilting Automatic System

Cabin tilting automatic system makes servicing of all power train components quick and easy. An electrically assisted hydraulic actuated cylinder tilts operator cabin to left side about 65 degrees for easy access to inside of truck components.

Rear Tire cover

The Rear tire cover with PE material is equipped to prevent clogging of the radiator from foreign substances.

Highly durable Carriage

The carriage is very strong cause of applying the high tensile structural steel which has a excellent durability.

Large footboard & Handle

Wide "open" step offers convenience and safety when entering and exiting the truck.

Excellent Night Work

- Various position of work lamp provides the operator more comfortable and safe operating environments.
- Front : fender(2), mast(4) Rear : cab(2)
- LED Rear Combination Lamp

08 HYUNDAI FORKLIFT 09

Fast and Easy Maintenance

An ideal arrangement of components ensures easy access and convenience for maintenance.

Large Engine Hood

Highly accessible engine compartment assures fast and efficient maintenance.

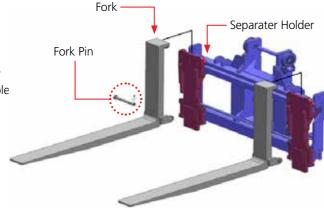

Easy Change Air Cleaner This air filter is readily accessible for cleaning or replacement.

Cabin Air Fresh Filter

The internal pressure is maintained to be slightly higher than that of outside to exclude dust and to reduce noise levels.

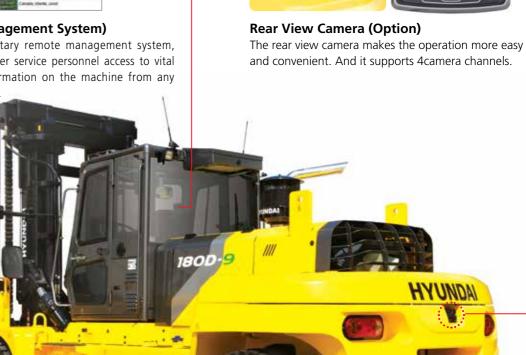

Separator holder type Fork Carriage(Option)

To improve handling and easily switch forks and other attachment Separator holder system is adopted as option. It is possible to install various attachments like coil ram easily.

Hi-mate (Remote Management System)

Hi-mate, Hyundai's proprietary remote management system, provides operators and dealer service personnel access to vital service and diagnostic information on the machine from any computer with internet access.

Master Switch

A master switch disconnects the battery power to protect the electrical system from excess electrical drainage.

Maintenance **Management Display**

otos may include optional equipment.

Engine Start Limit
